

PUBLIC WEBINAR

LINKING COVID-19 RESPONSE TO CLIMATE ACTION

The very first public MGI Webinar sets out to explore synergies and links between COVID-19 responses and climate action in cities. It will build on the identification of important levers and intervention areas established in a previous working session of the MGI consortium and actors from the pilot cities Kochi (India), Saltillo (Mexico) and Piura (Peru). The aim of the Webinar is to open up a space for exchange at the intersection of the Corona pandemic and the climate crisis.

Join us to gain exclusive insights from our international experts on best practices and strategies related to climate resilience, economic development and current examples of application. *The Webinar will be held in English, Spanish translations and subtitles will be available.*

**January 29,
2021**

15:00 – 17:00 CET //
9:00 – 11:00 PET //
8:00 – 10:00 CST //
