

C-Cube Organises Workshop on Climate Practitioners India Network

Be a
Climate
Mitra

Join **Climate Practitioners India Network (CPIN)** as a **Climate Mitra**, to be a part of a group that will **support grounding climate actions**.

As a Climate Mitra:

- Get information about climate projects in your city
- Volunteer in your city
- Get resources and knowledge products of C-Cube and their alliance partners
- Share your resources with other Climate Mitra
- Get a chance to write blogs for C-Cube

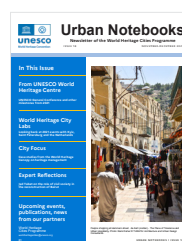

#ClimateMitra #ClimateProIndia

The Climate Centre for Cities (C-Cube) under its Climate Practitioners India Network (CPIN) organised a workshop on 9 January. CPIN consists of urban professionals and practitioners to provide strategic and technical support to strengthen the urban ecosystem with respect to climate change. The event was attended by more than 40 participants to discuss the role of CPIN members in the *Climate Change Awareness Campaign* and the *National Photography Competition* being organised as a part of the pre event activities to the **Smart Cities: Smart Urbanisation** on 4 and 5 February at Surat, Gujarat. For details about CPIN click [here](#).

Projects Update

Faecal Sludge Treatment Plant now Operational in Port Blair

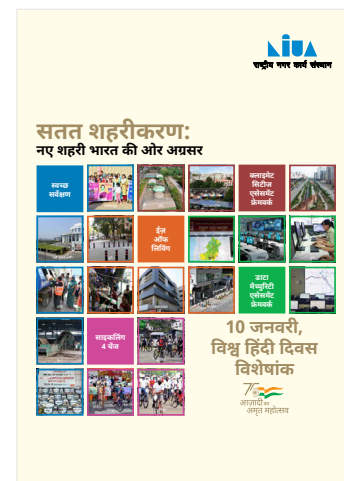

The Faecal Sludge Treatment Plant (FSTP) for the city of Port Blair is now fully operationalised. NIUA's Sanitation Capacity Building Platform (SCBP) Programme had prepared the detailed project report for the FSTP in collaboration with ECOSAN Services Foundation. The plant is a combination of decentralised waste water and sewerage treatment solutions with a total treatment capacity of 42 kilo liters per day. For details on Port Blair FSTP click [here](#).

"Urbanisation is simply not counting the number of urban people, but how we develop urban areas to generate better employment opportunities for youth"

Hitesh Vaidya
Director, NIUA

NIUA Publications
