

NIUA Launches Innovations and Youth Leadership Microsite

NIUA launched a microsite iNIUA on 25 January to serve as a repository for wider dissemination of innovation development taking place at NIUA through research and development, and partnerships. The website includes training modules, courses, and best-practices in the areas of sanitation, solid waste management, water, climate and resilience, environment, urban planning, education, housing, and public health among others. To visit the website click [here](#).

“Commendable effort by NIUA to promote the spirit of innovation among the youth by engaging with them through programmes such as ISCFP, NUDMFP, Smart Move, Thesis Competition & the new iNIUA repository which innovates solutions for modern urban issues”

Shri Hardeep Singh Puri
Union Minister for
Housing & Urban
Affairs

Project Update

C-Cube Organises an Online Workshop on Urban Green Cover Planning

The Climate Centre for Cities (C-Cube) at NIUA in collaboration with GIZ-New Delhi organised an online workshop **Co-creating Green Spaces City Network and Planning a Monitoring, Reporting and Verification (MRV) System for Urban Trees** in Coimbatore on 28 January. The purpose of the workshop was to introduce detailed design of Marutha Nagar Bio Park being implemented under the C-Cube and a concept of MRV system for urban trees. For details about the C-Cube click [here](#).

NIUA to Launch Programme on Leadership in Climate Change Management

NIUA will be launching **Leadership in Climate Change Management** programme soon. The programme includes a certificate course on developing climate-related strategies, financing and implementing climate actions. It is designed to equip the mid-level and senior public officials with essential expertise in the discipline of climate change. Stay tuned for more details.

Project Update

NIUA Organises a Webinar on TDR and Slum Redevelopment

The Master Plan of Delhi-2041 team at NIUA organised a webinar **Use of TDR for Slum Rehabilitation** on 27 January. The purpose was to understand the slum rehabilitation process and operational modalities of the Transfer of Development Rights (TDR) mechanism in Mumbai. It emerged from the discussion that there was a need to operationalise TDR in Delhi, and explore the opportunities for generating supply and absorbing demand of TDR in the city.
