The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.

Attending any such pre-proposal conference is optional and is at the Consultants’ expense.
- 2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant’s Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

- 3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client’s interest’s paramount, strictly avoiding conflicts

with other assignments or its own corporate interests, and acting without any consideration for future work.

3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract.

a. Conflicting Activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. 4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

**5. Fraud and
Corruption**

5.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section 6.

5.2 In further pursuance of this policy, Consultants shall permit and shall cause their agents (where declared or not), subcontractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any shortlisting process, Proposal submission, and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.

6.2 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.

6.3 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the applicable Procurement Regulations.

as described in Section VI, Fraud and Corruption, paragraph 2.2 d., shall be ineligible to be shortlisted for, submit proposals for, or be awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified **in the Data Sheet**.

b. Prohibitions

6.4.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in the **Data Sheet** and

- (a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or
- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

- (ii) their hiring would not create a conflict of interest, including any conflict with employment or other laws, regulations, or policies of the Borrower.

e. Borrower Debarment

6.4.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or

administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

- 7. General Considerations**
- 7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.

- 11. Only One Proposal**
- 11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

12.1 Proposals shall remain valid until the date specified **in the Data Sheet** or any extended date if amended by the Client in accordance with ITC 13.1.1.

12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts at Validity Extension

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

13. Clarification and Amendment of RFP

13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means.

14.1.3 If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**.

Section 7. Terms of Reference

1. Background

The National Institute of Urban Affairs (NIUA) and the National Mission for Clean Ganga (NMCG) are jointly working on promulgating river sensitive development in the river cities of the Ganga basin and other river basins in India. This engagement is based on the notion that cities have largely been responsible for the deterioration of the health of rivers, now it is the cities that have to play a vital role in their overall rejuvenation and sustenance. This notion has further been corroborated by the Hon'ble Prime Minister of India stating that 'there is a need for new thinking for 'River Cities'. Cities should be responsible for rejuvenating their rivers. It has to be done not just with the regulatory mindset but also with development and facilitatory outlook'.

NIUA and NMCG has been successful in triggering the general discourse on urban-centric aspects of river management in India. Cities are beginning to understand and appreciate the role of rivers in their sustainable development landscape and there is now strong momentum and appetite within river cities for addressing the urban aspects of river management. The Centre for River Sensitive Cities at NIUA has been envisaged as an avenue to sustain this momentum and scaling up of efforts around river sensitive development agenda in India. The agenda for the Centre is geared towards creating an enabling environment for, and facilitating the implementation of, practices, regulations, and projects that seek to harmonize the city-river relationship.

The NIUA-NMCG engagement has resulted in developing some key decision support systems aimed at capacitating the river cities in translating the knowledge around various aspects of urban river management into practice. Two such decision support systems are

- a) Urban River Management Plan (URMP) Framework – A unique first-of-its kind strategic framework for helping cities manage the stretches of rivers within their administrative boundaries, while at the same time operationalize the philosophy of integrated river basin management. The framework essentially requires all cities to plan and implement their actions under ten objectives to ensure that the cities act as inter-related operational units working towards a common vision for the river.
(refer link <https://indiarca.org/frameworks/> to access the URMP framework)
- b) Guidelines for “Making River-Sensitive master Plans” – The guideline elaborates on range of planning tools that can be used to address typical river-related challenges in river cities. The purpose of this guidance document is to help city planners across the basin, and the country at large, understand how to integrate river-sensitive thinking into a Master Plan.
(refer link <https://indiarca.org/frameworks/> to access the guidelines)

Based on the URMP framework, URMPs for the cities of Kanpur, Ayodhya (Uttar Pradesh) and Chhatrapati Sambhaji Nagar (Maharashtra) have been prepared. Refer link <https://indiarca.org/reports/> to access the URMP documents for these cities.

It is now being envisaged to scale up the URMP preparation for many river cities across the Ganga Basin. This initiative is being funded under the National Ganga Plan (NGP) – Externally Aided Project (EAP) World Bank budget head of Namami Gange Mission – II. A total of 60 URMPs are to be prepared in two phases – phase I involves preparation of 25 URMPs and phase II entails preparation of 35 URMPs.

2. Objectives of the assignment

The objective of this RFP is to hire consultancy services for the preparation of URMPs for 5 river cities from across the Ganga basin state of Jharkhand, as mentioned in the table below:

S. No	Ganga Basin State	River Cities for which URMP to be prepared
1	Jharkhand State	Adityapur, Chas, Dhanbad, Ranchi, Sahibganj-Rajmahal

3. Detailed scope of work for the assignment

The consulting firm is responsible for providing the following services for the preparation of the Urban River Management Plan for each of the city as mentioned above (involving the following key steps)

- a. Facilitate the formation of a “Multistakeholder URMP Working Group” at city level that would be responsible for overseeing the process of URMP preparation. The working group shall constitute officials from all the relevant city/district/state departments that are responsible for fulfilling the 10 Objectives as mentioned in the URMP framework (refer URMPs prepared by NIUA-NMCG for information on working groups constituted and its member composition). The Consultant shall conduct the following activities:
 - Stakeholder mapping to identify potential members for the working group in consultation with the Municipal Commissioner/Executive Officer of the ULB
 - Identify the position/official who would chair the working group
 - Coordinate and facilitate meetings to form the multistakeholder URMP working group
 - Draft terms of reference for the working group and
 - Draft documents required to formalize the working group through a council resolution

- b. 1st Meeting of the Multistakeholder URMP Working Group
 - Conduct the first meeting (inception/kick off) of the working group under the chairmanship of the city official (nominated to chair the working group meetings). The objectives of the meeting shall be introducing the project to the members, preliminary understanding of city's current situation and issues with respect to river and associated eco-system, expected support from the group members and sharing of way forward strategy for URMP preparation
 - Prepare minutes of the meeting and share with group members after approval from the working group chair
- c. Prepare baseline assessment report – data collection (primary/secondary) for conducting baseline assessment to identify gaps with regards to the 10 URMP objectives. The baseline and gaps to be presented in spatial format as well (GIS based maps).
 - Review meeting with NIUA/NMCG on baseline report, incorporate feedback and finalize for discussion with the URMP Working Group

The consultants are required to prepare a baseline assessment report capturing the existing status and gaps with respect to each objective of the URMP Framework. Capturing the existing situation, on-going projects under implementation and planned projects for future implementation are critical while preparing the city's URMP.

The municipal boundary of the city shall be the basis of conducting the baseline assessment and identifying the projects/interventions to fulfil the gaps towards achieving the Ten URMP objectives. However, given that river management goes beyond the riverbank area, the URMP shall include both pan-city and riverbank specific actions.

The baseline assessment shall be mainly based on the secondary data available with relevant departments/open-source data and primary data in the form of stakeholder consultations and primary data from ground mainly with regards to strengthening of the understanding of existing situation, identification and detailing of gap areas. The Consultants are not expected to undertake extensive topographical, hydrological, geological etc. studies as part of the baseline assessment.

The baseline mapping shall be in the form of GIS based spatial maps to represent existing situation and gaps observed for each of the URMP objective. The Consultants can use open-source satellite image and toposheets for geo-spatial analysis and generate relevant maps on GIS platform.

The indicative outputs including the list of maps to be generated for each URMP of a city is mentioned in Table below:

d. Conduct 2nd Meeting of the Multistakeholder URMP Working Group

- Conduct the second meeting of the “Multistakeholder URMP Working Group” for validation of draft baseline assessment report
- Minutes of the meeting capturing the suggestions/feedback/recommendations from the working group members with regards to data validation and prioritisation of issues as per the gap areas identified that needs to be addressed for maintaining the health of the river stretch as well as associated eco-system in the city in the form of waterbodies, wetlands, natural drainages etc.
- Formalization of minutes based on the approval from the working group chair and share with the group members

e. Incorporate the suggestions from the working group and finalize the Baseline Assessment Report and submit to NIUA/NMCG and the URMP Working Group

f. Prepare draft URMP report - based on the baseline assessment as discussed above, the consultants are responsible for identifying projects/interventions to address the gaps as assessed for each objective of the URMP.

The nature of projects/interventions could be in the form of planning and policy measures, hard measures (infrastructure/riverfront projects) and soft measures like community sensitisation and capacity building programs etc. The projects needs to be prioritised over short, mid and long term based on the criticality of the issue as identified in the baseline assessment. The duration to be defined for short/mid/long term measures can be different for different river cities as per the technical and financial resources available with the respective city.

Please refer the URMPs of Kanpur, Ayodhya and Chhatrapati Sambhaji Nagar (<https://indiarca.org/reports/>) for the nature of interventions. However, this is only for reference and not restrictive. Various other types of interventions may emerge from the river cities under the study.

The extent of detailing of each intervention, should be such that it can be taken up by the city for implementation (pre-DPR stage). The proposed interventions shall have site specific data and conceptual design that builds upon site specific primary assessments. For example under Objective 4 – Enhance Riparian Buffer, if stretches for providing the buffer are to be proposed then it should be based on field assessment including availability of actual land on site, land ownership, inventory of native species, feasibility of implementation from technical perspective etc. The degree of detailing for each intervention should be such that, if selected for implementation, then the same can be taken forward for DPR preparation. The consultants are not expected to take detailed on-site assessments like topographic surveys, soil testing, hydrological studies, total station survey etc.

The indicative (and not restrictive by any means) information to be captured under each proposed intervention is mentioned below:

- **Problem statement/need for the project** – drawing direct linkages with gaps as identified during baseline assessment
 - **Description of the project/intervention** – type of intervention, newly proposed or convergence with ongoing/planned intervention, project feasibility, place and area of implementation, key project components, layout map highlighting project location, conceptual design and constituting elements, estimated CAPEX and OPEX costs etc.
 - **Implementation timeline** – short, mid, long term
 - **Key stakeholders responsible for planning and implementation of the intervention** – roles and responsibilities, implementation strategy, framework for long term sustainability
 - **Funding avenues for the implementation** – national/state mission, city’s own revenues, Private/CSR or any other funding avenue, financing model
 - **Expected outcomes/benefits from the project** – key beneficiaries (from social, environment and economic perspectives)
- g. Review meeting with NIUA/NMCG on draft URMP report, incorporate feedback and finalize for discussion with the URMP Working Group
- h. Conduct 3rd Meeting of the Multistakeholder URMP Working Group
- Present the draft URMP to the working group and seek suggestions/feedback/recommendations for finalization of the plan components
 - Prepare minutes of the meeting capturing the inputs by the working group and share after the approval from the Chair.
- i. Presentation of draft URMP to state officials (after incorporating the feedback from the URMP working group). The meeting shall be facilitated by NIUA/NMCG.
- j. Prepare Final URMP Report

- Finalise the draft URMP report with all comments/suggestions duly incorporated and submit the final report and presentation to NIUA/NMCG.
