

# युवा महोत्सव सप्ताह

## NIUA-YOUTH WEEK

8 AUGUST 2023 TO 14 AUGUST 2023

International Youth Day is globally observed on 12 August, dedicated to celebrating the invaluable contributions of young people to society and promoting their empowerment. This year's celebration focuses on **"Green Skills for Youth: Towards a Sustainable World"**, emphasizing the pivotal role young individuals play in driving positive change, fostering sustainable development, and building resilient communities.

As the world is embarking on a green transition, the shift towards an environmentally sustainable and climate-friendly world is critical not only for responding to the global climate crisis but also for achieving the Sustainable Development Goals (SDGs). With India being the world's youngest country and the Youth a vital demographic for India's Amrit Kaal, it is the time to inculcate youth centric thinking in the urban reforms and planning.

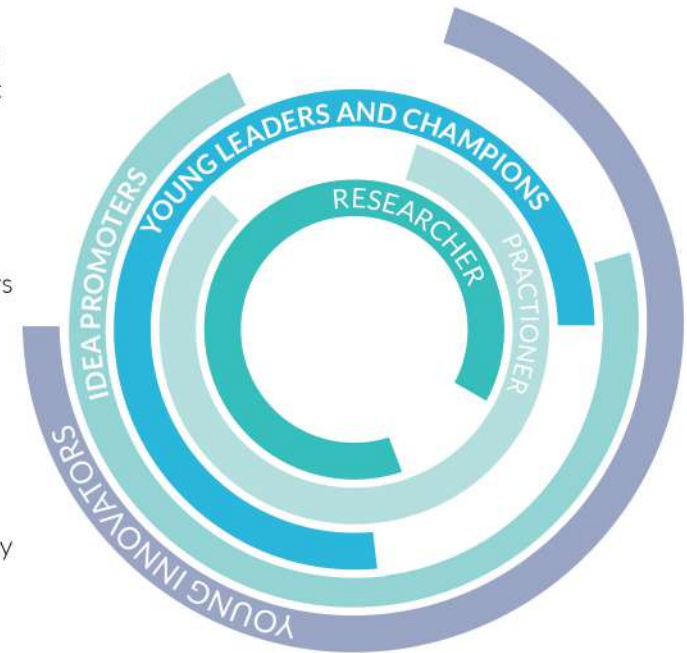

The Urban Youth Unit (uYu) at NIUA is celebrating its first "NIUA -Youth Week", with an aim to gradually induce active participation of Youth in decision making process. Starting from 8th August spread across the following week, uYu has called for an exciting set of engagement avenues to be held across the country. Competitions, quizzes, Youth Dialogues, surveys, games etc. are planned to celebrate the energy that the youth have. The NIUA-Youth week, in association with partner organisations, youth forums, cademic institutions across the country will be celebrated collectively for:

**Empowering Youth** by creating a community of young leaders to drive the green transition and climate agenda.

**Engaging Youth** in driving the awareness program highlighting the contribution of Yuva Shakti in sustainable urban development for achieving the SDGs.

**Networking platform** for building a platform for participatory approach by fostering frequent dialogues on policies and practices that can help in nurturing the skill development of green skills among the youth.
